

# GENERAL CLEANING GUIDELINES

To clean GroGlass anti-reflective glass we recommend:	
Cleaning materials:	e.g. soft cotton cloth window leather microfiber cloth
Aqueous solution, neutral and weakly alkaline window cleaner without additives of abrasive substances:  Permitted portion of ammonia < 5 Vol-%, as well as water solvable organic solvents < 5 Vol-%.	e.g. Flux Ajax

This list is not expected to be complete. Other cleaning materials and detergents are subject to evaluation and permission of GroGlass Ltd. Professional or experience in cleaning is prerequisite (use of lots of fluid, avoid high cleaning pressure (no squeaking), carefully remove particles & dirt, clean or wipe from top down to avoid cleaning agents drying on the glass). Avoid to use colorful cleaning fluids. If the cleaning fluid contains coloring agents, it is essential to clean off the glass quickly, so that no residues remain on the glass as they can affect the reflection color of the glass.

Do not use for cleaning GroGlass anti-reflective glass:	
Lyes	e.g. toilet cleaner
Acids	e.g. hydrochloric acid
strong ammonia cleaner	e.g. toilet cleaner
chlorine resp. hypochloride detergents	e.g. Chavel water, domestos
solvents	e.g. benzene, hexane, petrol
Aggressive cleaning materials	e.g. scouring powder, abrasive, steel wool, sponge with abrasives, scrapers, razor blades, cloth with thread made of steel, hard cloth or paper tissue
